Mason General Hospital • Mason Clinic

To: Board of Hospital Commissioners  
From: Eric Moll  
Date: March 24, 2026  
Subject: Consent Agenda

Consent agenda for Tuesday, March 24, 2026

**Approval of the Bills:**

General Fund	2264889 – 2265439, 244463 – 244488	\$16,304,469.97
Employee Medical	20302 – 20305	\$ 895,000.40

**Miscellaneous**

**Patient Experience**

ED- 3.4.27 Instead of keeping me there for 7 hrs to see dr to go over results of X-ray, bloodwork , ultrasound Since it ended up not being serious. They could have let me go home and call instead of seeing me face to face to tell me it wasn't my gallbladder. If serious I would have come back. Very busy I get that but 7 hrs of waiting in the emergency waiting room with all the germs throughout the visit was to much. When I could have just got a call

ED- 3.7.26 The doctor that was there that day offered a different medication for treating my SVT and he explained how it would work and was very polite and prepared. I liked his answers, attitude, and preparation. The nurses were also very kind and helpful.

ED- 3/11/26 I gave mostly good as a rating as coming into ER and the experience and care depends on the DR on duty. Dr. Lindell and Dr. Belinger were caring, attentive and did well in performing their duties. Other Drs. I have seen, came across as if it was a bother for me to have even been there...businesslike manner as opposed to caring and wanting to see how best to care for me. A majority of the nurses and techs have been great.

Inpatient: 3.13- During my hospital stay, I was impressed by the outstanding performance of the nursing staff. They were always cheerful, helpful, and willing to assist me. If I had to give special recognition, it would be to them. \*

Inpatient 3.13- impressed by the exceptional attitude of the nurses, CPAs, and cleaning personnel. They were all extremely cheerful and pleasant, which made a big difference in my experience.

I wish they hadn't woken me up every two hours to take my blood pressure or my temperature. That would have been a big improvement for my hospital stay.

**Open positions:**

NAC- 0.6 days ICU; 0.6 Nightshift House Supervisor; Surgery- 0.8 RN, MSP- (2) 0.9 nightshift RN, ED- (2) 0.6 RN, ICU- 0.9 nights. Total NAC- 0.6FTE, Total RN- 5.3 FTE

Recruitment: Hardest to fill- MSP nightshift and Surgery RN

**Health Sciences/Scholarship/Job Shadow:**

Dr. Lindahl and I attended a scholarship fair at SHS March 10th. The hospitalists have created a 10K scholarship from funds they receive for training students. They will be awarding 1 student a scholarship at the beginning of June. The funds are to be used for anyone going into the medical field and are pursuing a 4-year degree at a minimum.
