Budget Amendment

It is recommended to reallocate a 0.6 FTE Outpatient Wound Care Nurse position to a 1.0 FTE Clinical Nurse Educator in response to current operational needs and patient care priorities. Review of outpatient wound care service volumes indicates that they do not consistently support a dedicated 0.6 FTE position (and a 1.0 FTE), allowing the organization to more effectively deploy these resources toward broader clinical workforce support.

The reallocation represents a strategic investment in staff development and quality improvement while remaining within the existing approved budget, resulting in a small favorable variance. This change will enhance clinical support infrastructure, improve workforce preparedness, and better align staffing resources with current organizational needs
