Direct quotes from our patients:

Positive ED patient experience since last BOHC meeting. The question is: Is there anything outstanding that you would like to mention?

- 2025- 10-29 The nurses and people who came to do the test were excellent. The Doctor seemed to not listen well. I noticed on my paper given me he didn't put the correct time when my symptoms began and I feel that was an important item to mistake.
- 2025- 10-29 The whole experience was excellent, and the staff was kind and patient with me. Great experience all around.
- 10-24 They nurse was able to get an iv cath in place first try which is hard to do on me. The doctor was well informed on my disease and was able to make me comfortable by making a " magic mouth" rinse to relieve swelling and pain and prescribed meds that helped me, the doctor was able to inform me on how to make this rinse at home with over-the-counter meds. I've suffered with sjogrens since the COVID vax and spent much time suffering with oral swelling and ulcers that the VA couldn't alleviate . The staff at MCH were outstanding . Explained things and answered questions with respect. I appreciated that. Thank you.

- 10-22 The team does a great job making you feel listened to and cared for. I was seen right away. Nurse was very thoughtful and doctor very honest and reassuring. Very respectful. Excellent experience and would not hesitate to return in an emergency

Positive inpatient comments: The question is: Is there anything outstanding that you would like to mention?

- During this hospital stay, I felt that my nursing staff and doctors were outstanding. They demonstrated attentiveness, excellent communication, professionalism, and treated us with respect.*
- During my hospital stay at Mason General Hospital, one nurse stood out as particularly excellent. Her name was Lacey, and she was the nurse who assisted me during discharge.
- I want to emphasize that my entire hospital stay was outstanding. The care I received was truly excellent, and I was amazed by the quality of service. It was an unbelievable experience from start to finish.
- During my hospital stay at Mason General Hospital, what stood out to me was how well the doctors and nurses explained everything. I thought it was great
